

# NEXT OF KIN REGISTRY (NOKR) FACT SHEET

The basis for NOKR is who would emergency agencies call when your emergency happens? Who is your emergency contact? How would emergency staff know "Who to Contact" if you're unable to speak?

## What is the Next of Kin Registry?

The Next Of Kin Registry (NOKR) was established as a FREE tool for daily emergencies and national disasters. NOKR is an emergency contact system to help if you or your family member is missing, injured or deceased. NOKR provides the public a free proactive service to store emergency contacts, next of kin and vital medical information that would be critical to emergency response agencies. Stored information is only accessible via a secure area that is only accessible by emergency public trust agencies that have registered with NOKR.

## How does the system work?

If you or your family member is found in a situation where they are unable to communicate due to injury, missing person, or is deceased a local emergency agency could run your name or address through the NOKR and locate your registered emergency contacts.

## How do I register?

We have 3 options Online, Via Fax or through US Mail. An individual would register himself or herself or a family member, using the NOKR registration page or the **mail-in/fax form page**. By registering minimal non intrusive contact information online, via fax or by way of mail just got to **www.nokr.org (If you do not have internet access at home visit your local library they can help)**

## What is the cost?

NOKR is a free service to the public and the emergency agencies utilizing the resources. The NOKR resource is free to allow all individuals regardless of income to have peace of mind. Donations fund NOKR.
